

MBT low voltage motors

General information

Low voltage enclosed continuous current (DC) motors

MBT :

- Excitation by permanent magnets.
- Power 0.06 to 0.75 kW.
- IP 40 protection (MBT 65-82)
- IP 40 - IP 20 (MBT 1141)

MBT 65 : 2 poles construction.

MBT 82 : 2 poles construction
(4 poles after having studied).

MBT 1141 : Only 4 poles construction.

Uses

- Lifting equipment
- Medical equipment
- Pumps

CAUTION :

These applications are offered as a guide only; the conditions of use must be precisely defined.

Only the characteristics of the motors turning at nominal speed appear in the tables: 2500 - 3000 min⁻¹ and for standard voltages from 12 to 48 V. These values are the most common.

Conditions of use

S1 duty.

Altitude lower than 1 000 m.

Ambient temperature lower than or equal to 40 °C.

Description of the MBT low voltage continuous current (dc) motors

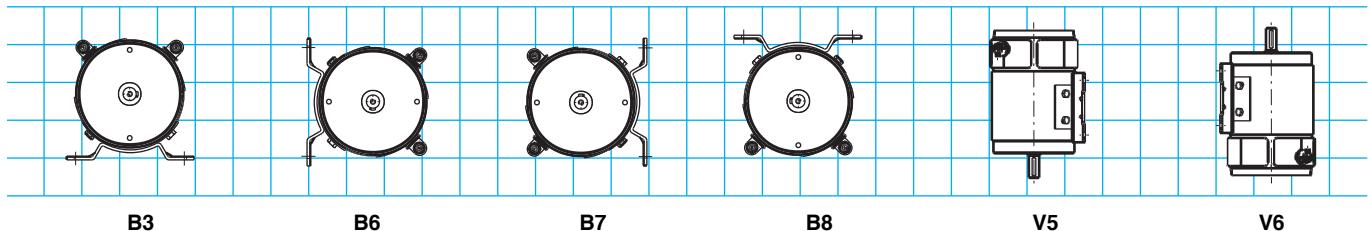

Component	Materials	Remarks
Casing	Steel	<ul style="list-style-type: none">- Drawn or welded according to models
Inductors	Permanent magnets	<ul style="list-style-type: none">- High coercive field
Armature	Insulated low carbon magnetic steel laminations Enameled electrolytic copper Insulation class F	<ul style="list-style-type: none">- Formed on automatic machines for consistent accuracy- Commutator, reinforced shrink fit
Commutator	Silver-plated copper on resin	
Shaft	Steel	<ul style="list-style-type: none">- Open keyway- Straight-ended key
Brush	Electrographitic compound	<ul style="list-style-type: none">- Different types fitted for various uses- In MBT 1141, cassettes/brush system certificated LS
End shields	Aluminium alloy	<ul style="list-style-type: none">- Front end shields for flange with plain or tapped holes
Bearings	Steel	<ul style="list-style-type: none">- Ball bearings- Lubricated for life
Connection	<ul style="list-style-type: none">- Wires, connectors or terminals- Faston strip for MBT 65	<ul style="list-style-type: none">- To be defined according to the application

B

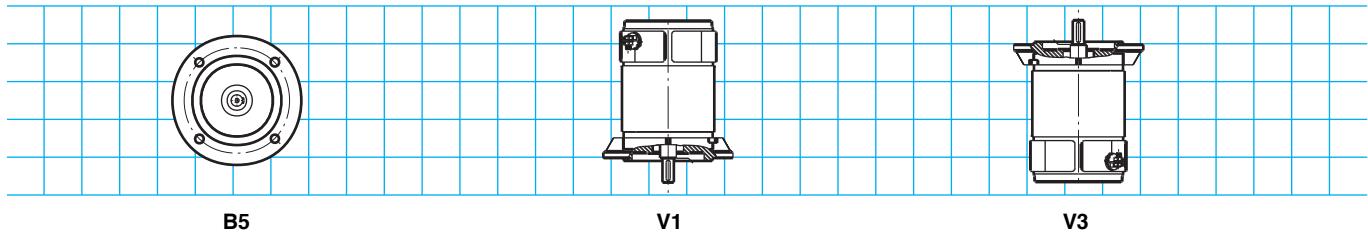

MBT low voltage motors

Mounting positions

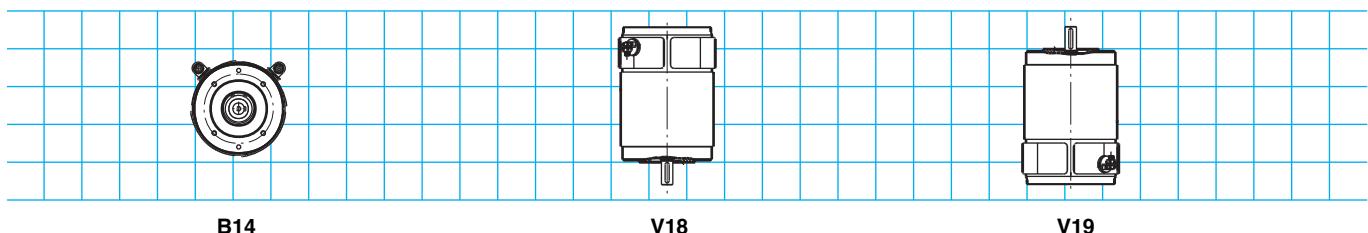

Foot mounted motors (only MBT 1141)

Plain hole flange mounted motors (only MBT 1141)

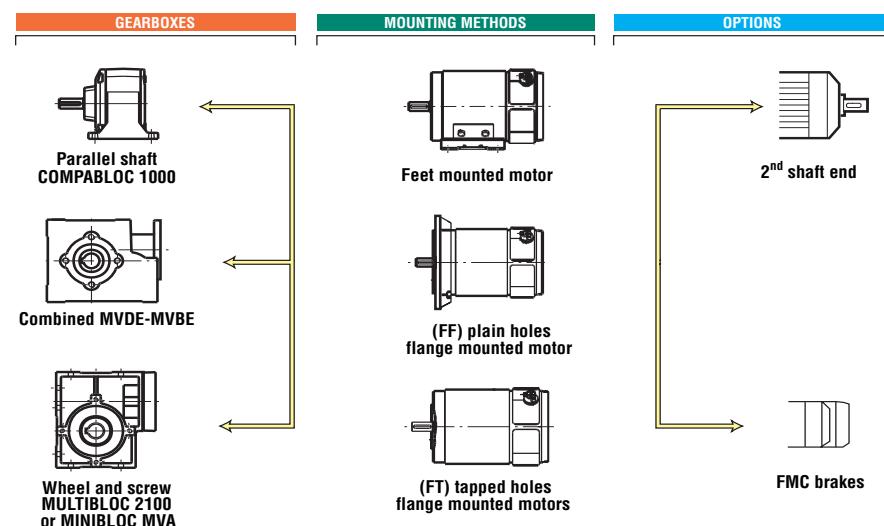

Tapped hole flange mounted motors

MBT low voltage motors

Adaptation possibilities

Leroy-Somer offers, for use with the fractional power motors, many options which meet the needs of highly diverse applications. They are described below.

B

Designation / Codification

MBT	82	M	12 V	3000 min⁻¹	0.18 kW	S1	IP 44	IM 1001	IC 410
Motor type	Motor diameter	Motor length	Armature voltage	Speed	Power	Duty type	Protection index	Mounting index	Cooling index

For the MBT 1141 motor, motor diameter : 114 mm.

MBT 82 motor

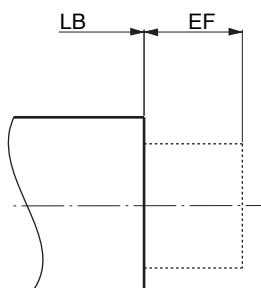

MBT 1141 motor

The image shows two views of the MBT 1141 motor. On the left, a 'Cable output' view shows a side profile with a cable exit at the top, labeled 'LB' and '23', and a height of '39'. The cable is specified as 'cable 2 x 2.5 mm² length 500 mm'. On the right, a 'Ventilated' view shows a side-on perspective with a vertical air vent on the right side. Dimensions include 'LB + 35' for the total width, '54' for the distance from the base to the vent, and '138' for the total height. To the right is a table of weights for various MBT models:

Type	LB ¹	LJ ¹	Weight kg
MBT 65 M	122	-	0.9
MBT 65 L	137	-	1,1
MBT 82 S	150	140	3
MBT 82 M	170	160	3,5
MBT 82 L	190	180	4
MBT 82 IL	210	200	4,5
MBT 1141 S	167	142	6
MBT 1141 M	187	162	7,5
MBT 1141 L	227	202	9
MBT 1141 VL	257	232	10,5

1. In the plain holes flange version (IM 3001), LB and LJ = + 15 mm MBT 1141.
